Cook answers categorically the statements imputed to the Eskimo boys, denying each in turn and giving reasons why he thinks they should be considered false; declares that Rasmussen has reason to dislike him; says no effort was made to get at the truth in the alleged examination of the two boys, but that, on the contrary, they were piled with leading questions, designed to evolve the answers desired, and points out that he terms the well-known tendency of all indians to give answers to which they believe will please the questioners. Cook says Rasmussen's reputation as an Arctic sledge traveler rests upon a journey from Tassuasak to Cape York.

"This trip" he says, "was but a step in my relation, occupying ofily three and one-half days and it is covered by one sentence ending my narrative."

REENSBURG (Pa.) The accident occurred at the home of Michael Wilding, while he was entertaining a party of about twenty-five men and woman.

it is believed that one of the men, while a dance was in progress, care-lessiy threw a cigarette but under the stairway. Twenty-five pounds of black mining powder are said to have been stored there in an open can. Flames from the powder shot through the room, and the scrid smoke blinded the dancers as they tried to escape.

The clothing of nearly all the dancers took fire from the explosion and, although the room was burned and blackened, the house was not seriously damaged. Men in adjoining houses rushed in with blankets and wrapped them about the burning women, saving many from death.

A special train brought the injured to this city. CHICAGO MOURN FOR

These, then, were his thoughts—his farewell thoughts.

Just before starting on his flight, he came over to the press stand and cleared his soul of his farewell mesage to earth. It was this: "I wish you paper fellows wouldn't call me Archie; my real name is Arch," Then he went and played with death.

He tore up from the starting field, struggling with a raw, stiff sea breeze. As you watched, he seemed to fade out of sight like the figure in a moving picture.

Soon he was a little smudge of grayish white against the storm clouds.

To see him up there, a tiny, frighted speck dodging in among the angry purple, bulbous storm monsters, brought home to one's mind as nothing in aviation has ever done before, the awful audacity of man in building these things.

As you watched, you found yourself hoping, like a child, that sofnehow the brave little speck would manage to eacape the monsters.

But at last one of them got him.
Just as the sun caught and flung back to earth a tiny flash from one of the busy propellers, you saw him swallowed by a cloud.

It was a head-on collision. In from the beaute some of the other machines kept cutting in across his path, and the gust from their propellers.

Although the Curtiss racer had been beaten earlier in the afternoon by the Baby Wright in a brush around the course, the Curtiss people had revenge in the individual tests late in the day, and both Ely and Curtiss beat Radley and Parmalee.

As a result of the interest aroused yesterday in the meeting of the Baby Wright and the Curtiss biplane, these two are to have it out again today. When the Wright Baby outgeneraled Ely, Curtiss showed his chagrin, but after he had made the best time of the day he was mollified, and announced that he would meet the Wrights today in, any kind of a race they wanted, on an even start, or in an Australian pursuit race.

PASTOR RUSSELL'S WEEKLY SERMON.

HARTFORD (Ct.) Dec. 26.—Pastor Russell of the Brooklyn Tabernacle preached here twice. He addressed large audiences in the Operahouse. He had excellent attention. We report one of his discourses from the following text:

"Cast not away therefore your confidence, which hath great recompense of reward."—Hebrews 10:35.

Our English word confidence is a synonym for faith. It is a very pretty thought that we should not cast away our faith, but hold firmity to it and gain a reward. This thought is expressed elsewhere in the Scriptures, but it is not the thought of our text. Here the word confidence more properly signifies assurance or out-spokenness, courageous presentation of a message not always kindly received. The Apostle is urging the followers of Christ to be of good courage, or, in the language of the Savior, that they

Rugby, which, with the exception of soccer, is perhaps most unlike the old American game of any of the styles of play that are to be exhibited during the afternoon, will follow the Indian-St. Vincent contest. The principals are to be a picked team from Los Angeles High School and the Polytechnic fifteen. The American game under the 1910 rules, with 8-minute quarters; which is the third contest, will probably be the best-played game of the carnival, as each of the teams that are to take part—the Southern California Athletic Club eleven and the Throop, aggregation—has been training fathfully for the last week, and both put up a good brand of ball earlier in the season.
